

CLASS OF 2024

MCKENNA HOGAN

By joining SGA's House of Representatives I would have the ability to participate in making real change around TCU 's campus and have the ability to voice my opinion on pressing issues that the student body brings to the attention of SGA. In the future, I am interested in attending Law School. Being a part of SGA's House of Representatives would give me experience collaborating with other people to reach a conclusion and help me to learn more about the legislative process and jargon used during SGA's meetings.

KELLEN MEAGHER

I want to be a part of the SGA House of Representatives for three main reasons. Firstly, I want to make sure student voices are heard, no matter what organizations they identify with. While all students are different and have various opinions, I believe there is a gap between greek and non-greek students and it can be mended and bridged. As a member of both greek and non-greek organizations, I have a unique perspective when it comes to the student body's voice. Secondly, I want to be a part of the change to make our campus better than it already is. I know that TCU is exactly where I am supposed to be but I want to work for others to feel the same way I do. Lastly, I believe I can be an addition to the House of Representatives through my connections throughout TCU. I am prepared to listen and account for my constituents with my behavior and pursue genuine beliefs outside of my own.

COLE MUSHEGAN

There is no doubt that TCU is the greatest college with the greatest student body. As a representative, I want to enable students to have the greatest college experience possible. To me, this means coordinating with teachers to make D2L more user friendly and streamlined, as well as spending SGA fees on activities that students care about. I want to make Student IDs available for us on smartphones, so forgetting your ID is no longer a concern. The dining halls have constantly had low ratings, I want to increase the meal options to a variety of food that students will typically favor (not as much experimentation with meals). Even more so, meal swipes need to be worth more than \$7.50, so students can go to places like Chick-Fil-A or Caliente and not need two swipes for one meal. Lastly, the P/NC should be an option that helps not hurts students. The teachers should be able to remove a Pass if a student ends up getting an A after he elected Pass/NC.

On campus, I have held exec positions in multiple clubs of different purposes. While in these positions, I have heard the complaints of TCU students. I'm willing to dedicate my time to fixing the seemingly small, but experience changing areas on campus to give everyone the best time at TCU.

LUKE FRAVEL

I have been in house for the past two years as a Neeley representative. I have put quite a bit of time and effort into my role in SGA, but sometimes big projects take years to come to fruition. So, if I am not reelected, I will not be able to carry out my plans. I am also the SGA representative for the Chancellor's Committee for Academic Appeals and the committee in charge of the upcoming library renovations.
