

# CLASS OF 2025

## JOSEPH WINICK

I want to continue to represent the class of 2025 next year because I value the collective interests of my classmates and peers! I take pride in being a leader by example, and I want nothing more than to continue being the voice of the class of 2025!

## PARKER BURROSS

I want to be a member of the SGA House of Representatives because of the experience I have had serving as the Representative to the Class of 2025. While serving my classmates in this position I have had the opportunity to be an impactful member of the House of Representatives and have taken representing my classmates seriously. From winning "New Member of the Semester" to serving on the SGA Finance Board and Committee, I have been actively involved and want to continue working for my class and advocating for what will bring the most joy to my fellow members of the Class of 2025

I believe that the campus needs me because of my willingness to commit to activities, organizations, and peer to peer connections. I do this not only so that I can find ways to continue bettering the TCU Community, but also because I love the amount of joy there is within this community. From being a member of the Club Rowing Team to working with "The End" on planning special events, I have had an amazing time getting involved on campus. Being social, and helping others get plugged is key to continuing a positive environment on campus, and that is something I love advocating for daily. I believe the campus needs someone willing to work with others on finding new possibilities of how we can all connect, and I believe they should do it with a smile. I believe that person is me.

## ANDREW HOLDEN

I first heard about the opportunity provided by the SGA House of Representatives during a Frog Aides meeting. In that meeting, we went through a mock debate and vote over an actual proposition. This process was not only exciting given my interest in government and politics, but also engaging because I felt the difference that could be made with that kind of position. The SGA House of Representatives would allow me the unique opportunity to make my voice heard while also representing my peers on campus. I would cherish playing an active-role in the decision-making process, transforming campus into an even more inclusive and inviting environment than it already is. I think TCU needs me because my variety of involvement on campus provides me a more holistic perspective of what campus is looking for. During my freshman year, I have had the pleasure of taking part in clubs such as SGA Frog Aides, Frog Army, Dream Outside the Box, Impact of Words, and Frog Camp next summer. My participation on campus will only grow in the coming years. My connection with all these different groups provides me with a unique idea of what TCU needs. Additionally, my composed attitude and experience with collaboration lends itself to generating compromise, an important aspect of properly representing campus. Overall, a seat on the SGA House of Representatives would allow me the opportunity to further diversify my involvement on campus while representing my peers through compromise.

## RYAN CHARLES SWEENEY

I want to join SGA House of Representatives because I want to be a leader on campus and help do good for the student body. I have held leadership roles in the past when playing

soccer and working at a local restaurant, and I believe that I could put the skills that I have learned to good use. Lastly, I am a winner, and that is what I aspire to do.
